

NC DEPARTMENT OF
INSURANCE
OFFICE OF STATE FIRE MARSHAL

IMAGE TREND FIRE BRIDGE REGIONAL TRAINING

These sessions are designed to provide an overview of the complete Records Management Software package available to all North Carolina Fire and Rescue Agencies. There will be a stronger concentration of training on the required NFIRS module and the report writer. North Carolina OSFM will no longer support entering NFIRS reports into the USFA Data Entry after June 30, 2018. Departments should switch to the free Image Trend Records Management Software or to another third-party software to report their NFIRS reports. If a fire or rescue agency is currently using a third-party software vendor they may continue to do so and are not required to switch to Image Trend. The Image Trend Fire Bridge Records Management Software is available all North Carolina Fire and Rescue Agencies for free.

March 26, 2018
