2009 Codes

Enforcement of the 2009 codes is scheduled to be phased between January 1, 2009 and July 1, 2009. During this 6-month period, either the 2006 or the 2009 code can be used. After July 1st, only the 2009 North Carolina code will be in effect. The appropriate edition needs to be identified on the construction documents, most notably in the Appendix B (2006/2009 North Carolina Administrative Code and Policies) information. ICC is currently accepting online orders for the Energy Conservation, Fire, Fuel Gas, Mechanical and Plumbing Codes. The Administrative, Building and Residential Codes will be also available soon for online orders.

Upcoming Testing

Except for the Electrical Code, the certification tests will be based on the 2009 NC Codes beginning on July 1st. Current Electrical certifications are already based on the 2008 NC Electrical Code.

Changing Faces

It is with a great deal of sadness that we need to announce Leslie Allen will be leaving the department, her last day is December 9th. She will be taking a prestigious position at NC State and we wish her the best.
