Code: 2018 Residential Code  
Section: R311.7.5  

Date: April 9, 2019

Question:  
If a stair leads up to a door that has a threshold, do you measure the riser height to the top of the threshold or to the finished floor height?

Answer:  
Measure the rise from the stair step (tread) surface or landing surface (if any) to the top of the threshold.

Keywords:  
Stairways, risers, garages, steps
