

Hazardous Materials Technician Instructor Qualification Process

1. Must be a certified Technician for 2 years on an active Haz Mat Team.
2. Must be a qualified Haz Mat Ops Instructor.
3. Successfully pass a 150 question Technician test with a 70%.
4. Must have attended the OSFM or course delivered by an approved Technician level delivery agency after January 2003. If a candidate has not met the above requirement the instructor candidate must audit the entire 2 week OSFM course.
5. Candidate must teach assigned sections in transportation, atmospheric monitoring, practical exercises, and final exercise during class.
6. Peer review process will be documented on evaluation sheet (to be developed) with comments. Candidate will know within 4 weeks of the status if they are qualified.
7. Reciprocity will not be considered for instructor qualification
