

2010 Medicare Advantage Special Needs Plans

Data as of September 17, 2009. Includes all contracts/plans regardless of 2010 approval status. Employer sponsored plans (800 series) and dual SNPs without state contracts are excluded. Plans under sanction are not shown.

Notes: Data are subject to change as contracts are being finalized. Gap coverage descriptions for the 2010 benefit year have been revised. The percentage of "Generic" products and the percentage of "Brand" products covered in the gap are each separately calculated and the following descriptions are added: "All": 100% of drugs are covered through the gap, "Many": ≥65% to <100% of drugs are covered through the gap, "Some": ≥10% to <65% of drugs are covered through the gap, "Few": >0% to <10% of drugs are covered through the gap (and must also be >15 products covered through the gap), "No Gap Coverage": 0% of drugs are covered through the gap (or ≤15 products covered through the gap). A label of "All Formulary Drugs" is applied for plans that cover 100% of "Generic" and 100% of "Brand" products (either by covering all drugs or by having an initial coverage list).

* Your premium may be lower depending on your eligibility for medical assistance. Call your plan for details.
